Height: 13.2 hands

At NAC since: February 20, 2009

**Leased from:
Lisa Pedersen**

**Sponsored by:
Cia Lin O'Brien
2009 Platinum Sponsor**

Biography:

Bergen has a tumultuous history. Her initial training only lasted a short 30 days. After that she was mainly used as a brood mare for ten years. She was found by Lisa Pedersen in Washington – heading to slaughter. Lisa was helped by members of the National Fjord Horse Registry to get Bergen to Idaho. That process took six months. She then moved to Lisa's home in Cedar City where Lisa plans to breed her because of her color which can produce a very rare yellow dun foal.

Bergen is currently leased to the NAC and has been an invaluable asset to our program. She has excelled in any capacity we have asked her to work and shows a strong love for, and an attachment to, her riders. We are excited to continue to use Bergen in our program and to find all her talents and potential.
