2009 Platinum Sponsor**

Biography:

Ayla is a Fjord mare born in 1991 who is from Cedar City, Utah. She was born in Canada, where she was a packhorse and then proceeded to go through a few different homes where she eventually ended up in Cedar City. She was then used as a search-and-rescue horse, which was great preparation to be a therapy horse. Ayla's big hip movement and large stride make her a great hippotherapy horse used to increase patient's flexibility and muscle tone. She has been a wonderful addition to the program.
