Biography:

Merlin is a cremello pony born in 1998 and was leased to the National Ability Center in July of 2007 from Pam Beacom. Merlin comes from the show circuit and was also once a school pony. Merlin has the spunk and personality that really communicates with the students, and he is a challenge for the kids who are ready to progress from intermediate to advanced levels of riding. He is also one of our hippotherapy ponies. Merlin loves whatever job he is asked to do with our students.

One of Merlin's favorite students is Katie, the daughter of his owner. Every Saturday Merlin stands patiently in the barn aisle awaiting Katie's arrival. When she comes through the barn he immediately perks up and gets ready for his lesson with her.

Thank you to the Beacom Family for their generosity in leasing Merlin to the National Ability Center.
