Biography:

Rocky is an adorable Pony – half Pony of America and half quarter horse. He was foaled in 1998 and is 13.3 hands tall. He is currently under long term lease from Nancy Sutton from Oakley, Utah. Rocky grew up with Nancy's daughter. When the daughter went to college, it was time to find a good home for Rocky. As a jumper, Rocky came to us with a calm, fearless temperament that serves well in lead walking, walk-only lessons, independent walk, trot and/or canter lessons and jumping. He is a versatile pony that has captured the hearts of many of our riders. Rocky is also used in Hippotherapy lessons. His easy lead walking and fluid movement make him a desirable horse for our Occupational Therapist to use.

Because of his good looks and charm, Rocky is easy to fall in love with. Also, his rocker hair style keeps him in vogue with the teenage riders. His young age and personality prove that he is, and will continue to be for quite some time, a solid member of our horse therapist team.
